BOGUS MONEY CIRCULATED

Many of the Local Merchants Have Been Duped

Counterfeit money is in circulation in this city to a noticeable extent. During the past few days several citizens have come in possession of a queer kind of half dollar that looks like the good but which is made of lead and is easily detected when one begins to cut into it. Most of this bogus money has been passed on the local merchants and they in turn have unknowingly passed it out. At the local banks they appear to be having no trouble.

DENY THEY HAVE A SUICIDE CLUB

STUDENT OF UNIVERSITY NOT BANDED FOR SELF MURDER

Their Relatives Are Indignant That They Should Be Accused—President Adams and Senator Spooner Discredit the Reports—Suicides Usually Come in Groups.

Madison, Wis., Sept. 28.—Considerable excitement has been caused here by the publication of a rumor that there existed a suicide club among the students and young men of the town. While little credence is given the rumor, there is considerable anxiety among the parents and young men of the class to which Henry Freeman, who killed himself Sunday night, belonged.

The rumor was given support by a number of suicides which have taken place among the young men during the last two years. No one knows any facts on which to prove that there is or is not a suicide club.

President Adams, of the university, when seen last night, said that he could not believe anything of the kind to be true. "I consider it cruel to publish such a story at this time," said Dr. Adams. "Of course it is a historical fact that suicides usually come in groups or in epidemics, but that is no evidence of the existence of a club organized for self-destruction among its members. I think that the whole matter is the product of someone's imagination, and is extremely unfortunate. I should only believe that such an organization existed on the absolute statement of some one who knew of his own knowledge of its existence."

United States Senator John C. Spooner, whose youngest son was a victim of Henry Freeman, said that he took no stock in the story. "I consider that story an outrage," said Mr. Spooner. "and a sample of the worst type of brutal humor. I am satisfied that there is absolutely no truth in it, and think that it is very unfortunate it should have been given space in any newspaper."

The Madison correspondent of the Chicago Chronicle, referring to the report of the existence of a suicide club among the students of the state university, says: "A feeling of fear and horror has come over this city on account of the great number of tragedies occurring. To the shock occasioned by a half dozen drownings and several violent deaths is now added the fear of the existence of a suicide club among the leading young men of the university."

This much, at least, is true: Suicide has a strong array of defenders among the brightest young men here, who are speaking out boldly in the discussion of this subject. To the growing spirit of infidelity in the university, which has engaged the fears of pious people for years, is charged the responsibility for the licentiousness with which self-destruction is regarded.

Now that the matter is under discussion a number of mysterious deaths in the university in recent years are recalled, that of the brilliant Professor John B. Dow being most conspicuous among suicides.

People are scouting the idea of the existence of a suicide club, but it is known that self-destruction has been preached and defended here and the organization of a club, like those of a similar nature in Paris, advocated.

CREDITORS PAID SECOND DIVIDENDS

BANK OF EDGERTON CASE IS REVIVED.

Monday Receiver Towne Will Pay Out More Cash to Anxious Depositors—Will Make Total of Thirty Per Cent. Payment—Suits Are Still Pending Against Stockholders.

Rock county residents who are personally interested as depositors in the defunct bank of Edgerton, are much pleased over the announcement just made of a second payment which is to be made. Receiver L. H. Towne announces that on Monday next he will commence to pay a dividend of 10 per cent on uncontested claims. Its previous dividend of 20 per cent was paid early in the year, making 30 per cent payment now in sight for the depositors. The claims filed against the defunct bank aggregate \$325,902.18, but offsets and claims rejected by the court reduce the liabilities on which dividends will now be paid to \$286,840. Suits are pending against the former stockholders and directors of the Bank of Edgerton for the recovery of the shortage between what the bank will pay out and the amounts due the creditors, which is believed will not be far from 50 per cent. The present dividend will distribute \$28,684.06 among the depositors. The money so far distributed by the receiver has been obtained from bank collaterals, as the stockholder's liability has not yet been determined by the court. The suits will doubtless be cited for trial at the November term of the circuit court for Rock county.

GIANTS TO DO BATTLE

England and Russia Covet Chinese Empire.

THEY WILL CONTEST FOR ITS POSSESSION.

Britain to Send Navy Against Seaport Cities.

STRIFE MAY SHORTLY BE TRANSFERRED TO EUROPE

London, Sept. 27.—[Special]—The next great political upheaval, it is believed by statesmen here, will be the dismemberment of the Chinese empire. All of the leading powers are looking forward to it with a degree of interest never before manifested in an event upon the continent of Asia, for stirring developments that may involve the peace of Europe are impending.

The two rivals for the control of China are Russia and Great Britain. France has a small interest in the empire and Germany is anxious to acquire a foothold. But the struggle for possession lies chiefly between the two powers first named. Russia has no navy with which to maintain her pretensions, but being possessed of Siberia, which borders on the northern line of China, can make an effective land demonstration. England, however, can possess herself of all the seaports and thus place herself in a position to control the commerce of the country.

The restoration of Li Hung Chang to power by the queen regent is not regarded with favor by British statesmen. That dignitary's partiality for Russia has been manifested on several occasions, and a demand for his removal will shortly be made. If the queen refuses compliance it will be regarded as casus belli, and reprisals upon Chinese ports will follow. Shanghai is already a British port, and British influence is also predominant at other important points. It is believed that in a month every seaport in China can be seized by the British navy. Russia in the meantime can send a large land force across the northern border, and unless England is expeditious, obtain possession of Peking with all its countless stores of wealth.

This, it is believed, is the program of the two nations. It is not believed that Great Britain will content herself with supremacy along the coast line, but at the first indication of Russia's purpose to invade the Celestial kingdom she will make a dash for the capital and there confront the Russians with bayonets and artillery. That England has the advantage is generally admitted throughout Europe, but that Russia will acquiesce in her plans of territorial expansion is not for a moment believed. A gigantic conflict is impending. The conflict will doubtless begin on Chinese soil, but will inevitably be transferred to Europe. Then will begin the final struggle for supremacy between the Star and Anglo Saxon races that gives promise of being a long and bloody one.

One thing seems certain: The days of the Chinese empire are numbered. That vast nation must become subject to British or Russian influences. At present the odds seem to favor Great Britain. She has money, ships and skill in the arts of war. Russia has the advantage in the number of her soldiers, but numbers do not count against the intelligence of the British soldier and sailor backed by boundless resources.

It is not believed that the conflict can be long postponed. The deposition of the young emperor of China, is, perhaps, the initial act in the drama. The curtain has been rung up and the scenes will now follow each other in quick succession while the whole world will be the interested spectators.

1880—General Samuel D. Stringa, a veteran of the Mexican war and distinguished Federal leader in the west, died at St. Paul; born at Shippensburg, Pa., 1822.
1892—General John Pope, U. S. A., retired; died at Sandusky, O.; born 1823. Pope was a successful general in the southwest and the hero of the capture of Island No. 10 in the Mississippi. His Virginia campaign of 1862 was most disastrous.

VICTORY IS ASSURED.

Editor Usher, of the La Crosse Chronicle, sees republican success in the full campaign. He favors the defeat of the silver state ticket as he also favored the defeat of Bryan, because the principles enunciated are not democratic principles, although the name is used by the silver men. Mr. Usher says:

"In 1896 the democrats who voted against Mr. Bryan did not pretend to deny his personal integrity and good character. They denied that his platform was a democratic platform, and refused to endorse the principles he represented. If those principles have made friends among democrats since 1896, there will be some changes in Wisconsin this year. If not the result will again follow the results in 1894 and 1896, and democrats will continue to drub the party that bears their name because they think it misrepresents democracy. Nor will they turn aside to split hairs as between Governor Scofield, and the candidates for the legislature and for congress. One cross at the top of the ticket will be made offener this year, if anything, than it was two years ago.

"There will be some prodigals who will go back to the regular fold. There will also be straight republican votes this year that were not cast two years ago. In the 'round up' the general situation will be little changed. Another republican victory has been made certain, as things now stand."

PHYSIC FOR INTELLIGENCE

A newspaper that will print such rot as the following, must have an exalted idea of the intelligence of its readers: "Much is being said and written of late because the state convention of democrats saw fit to endorse the national convention platform. It is probable, however, that if this endorsement had not been given, that republican officials could have denounced the convention as 'irregular,' and refused to print the ticket 'democratic.' Those who doubt should read the latest election law enacted by the republicans. At present we are under a government by injunction, mostly."

Feeble islanders might be misled by such stuff, but American voters—never!

The democratic state ticket is a sad makeshift. Now the silver men propose to bolt unless P. V. Duester, the gold democrat, is taken off the ticket, and an out and out Bryan man put in his place as the candidate for lieutenant governor. The democratic state convention tried to "play both ends against the middle" with both the gold men and the populists, and failed, signally, in both cases.

The St. Louis Globe-Democrat says: "The valiant army brought from Santiago to Montauk, and thence distributed throughout the country has been handled with unusual ability. History will be searched in vain for the record of any other army treated with equal consideration."

The Recorder says the democratic party has "a general tendency to discourage trusts and monopolies." As

the party has never done anything on that line, however, the alleged "general tendency" doesn't amount to anything. The people do not want a party of "general tendencies" in power. They want a party that accomplishes results—the republican party.

The wisdom of the administration in refusing to recognize the independence of the Cuban republic, is now apparent. General Garcia says in an interview that the soldiers did not recognize the government themselves. He characterizes the officials as "mere pretenders."

L. Holden Parker, of Beloit, who was nominated by the republicans of the Line City district for member of the assembly, is a man of splendid abilities and will make an unusually able legislator.

It is unlikely that the war tax laws will be repealed at the coming session of congress, as war revenues will be needed for some time to come.

Senator John C. Spooner and ex-Congressman La Follette will speak at the Marquette club's Chicago day celebration on Oct. 10.

SAINTS CLOSE CAMP MEETING

REORGANIZED CHURCH ENDS ITS SESSION.

Gatherings Were Full of Interest—Prophecies of the Second Coming of Christ Explained—Differences Between This Organization and the Utah Branch Made Clear.

The closing day of the tent meeting held by the ministers and members of the Reorganized Church of Jesus Christ was Sunday the 25th inst. Accounts of the previous sessions came down to Thursday evening, the 22d. On Friday, Saturday and Sunday morning the prayer services were largely attended, many more members having come in from Rock, Walworth and Dane counties.

On Friday afternoon Elder H. Stebbins preached more especially to the church concerning the spiritual gifts mentioned in First Corinthians, twelfth chapter and their use and their benefit to the followers of Christ according to this promise. In the evening Elder W. A. McDowell earnestly presented the unchangeability of the gospel of Christ and its ordinances for the eternal salvation and happiness of mankind.

On Saturday morning after the prayer service, there was held a conference meeting to transact business. Reports of the various local churches in southern Wisconsin were read. Reports were received of the ministry and missionaries present, and from those not present at the camp meeting. Other business pertaining to the district was done after dinner, followed by a sermon from Elder Stebbins upon the First Resurrection and who are to have part in it. At the evening hour Elder C. H. Burr preached from the book of Daniel on the prophetic periods and their culmination in the latter time or about the time of the final appearing of the Lord Jesus Christ.

On Sunday at half past ten Elder Stebbins brought forward from the old and new testaments the prophecies in support of Christ's declarations Matthew 24, Mark 13 and Luke 21, as to the signs of the times to be apparent and clear in the generation when the Savior shall come back to earth in person and in power. In the afternoon Elder Lake preached upon the existence of good and evil, of God and Satan, and of the need that men shall obey the laws of truth and righteousness and reject the government of the evil one.

The evening was occupied by Elder McDowell, his subject being the restoration of the gospel of Christ in these latter days as one of the signs of his coming as well as the means of man's salvation and happiness.

Upon call from the congregation for something concerning the differences between the recognized church and the Utah people, Elder Lake gave a historical sketch of the subject and proofs of the wide dissimilarity between the two bodies, they of Utah being shown to have gone into sin and iniquity contrary to the original faith of the Latter Day Saints. He was followed briefly by Elder Stebbins, on the same subject.

The tent was crowded during Saturday evening and at all the Sunday services and a deep interest was apparent. On Monday morning most of the campers packed up and started homeward by teams and on the trains, some, however, not going from Mr. Dutton's until as late as Tuesday, or Wednesday. Elders Lake, Stebbins and E. M. Wildermuth leave this week for northern Illinois, while Elder McDowell, Burr, J. B. Wildermuth, Muecus, Robinson and Houghton remain in Wisconsin.

Black. Only one ballot was necessary, the vote being 753 to 213, with 436 necessary to a choice.

The platform contains these planks: "We renew our allegiance to the doctrines of the St. Louis platform. We continue to condemn and resist the democratic policies declared at Chicago.

"We realize that when the necessities of war compelled our nation to destroy Spanish authority in the Antilles and in the Philippines we assumed solemn duties and obligations, alike to the people of the islands we conquered and to the civilized world. We cannot turn these islands back to Spain. We cannot leave them, unarmed for defense and untried in statecraft, to the horrors of domestic strife or to partition among European powers. We have assumed the responsibilities of victory and wherever our flag has gone there the liberty, the humanity and the civilization which that flag embodies and represents must remain and abide forever.

LAI TO REST IN HONORED GRAVES

FUNERAL OF JUDGE PHELPS LARGELY ATTENDED

Old Associates at the Bar and Comrades in Arms Were Present—Obsequies of Others Recently Deceased—Death of an Early Stock Raiser of This Section.

The funeral services of the late Judge M. M. Phelps were conducted at the home at 2:30 this afternoon. Rev. W. A. Hall, of Court Street, officiating. A trio composed of Mrs. Hawley, Mrs. Clark, Miss Hall and Mrs. Sweeney conducted the song service. The Grand Army acted as an escort, and also took charge of the services at the grave, which were very impressive. The bar attended in a body, showing marked respect to the memory of the departed, who had long been connected with the Association.

Many who were unable to find places in the house gathered on the porch and about the lawn. They stood with bared heads as the words of the prayer were heard, and as Rev. Mr. Hall spoke of the bearing up of a friend from earthly sorrows to heavenly peace.

As the notes of the last hymn died away members of W. H. Sargent Post formed two lines and between them the coffin of their dead comrade was borne. An escort from the Post marched beside the hearse on the way to Oak Hill.

The pall bearers were B. F. Dunwiddie, Horace McElroy, William Smith, S. C. Burnham, W. F. Carle, W. G. Palmer.

Lewis Clark.

Lewis Clark, one of the pioneer residents of Rock county, died yesterday at his home in the town of "Beloit." He moved to that town in 1839, and was a great sheep raiser. He drove a flock of eight hundred sheep from Batavia, New York, to Rock county, being months on the road, and allowing them to feed by the wayside. Mr. Clark had a very extensive acquaintance, and was well known in this city.

Mr. Clark was well known as an authority on farm topics, and was a frequent contributor to the agricultural press. He was a zealous worker in behalf of agricultural societies.

Two daughters survive him, Mrs. Z. Martin, of Beloit, and Mrs. Clara Mann. The funeral will be held in Beloit, Thursday, at 2:30 p. m.

Mrs. Mary Cassady.

From St. Patrick's church this morning at 9:30 o'clock services were held over the remains of the late Mrs. Bridget Cassady. Loving friends were there in large numbers and the interment was in Mount Olivet cemetery.

Rev. J. J. Collins officiated, and the pall bearers were James Ryan, James Sennett, Michael McCue, John Flannery, Michael Cronin and James O'Rourke.

Mrs. Silas Thwing.

At noon today brief services were held over the remains of the late Mrs. Silas Thwing, from the Cherry street residence. On the afternoon train the remains were taken to Edgerton, where services were held from the Methodist church at 2 o'clock. Interment was in the Edgerton cemetery.

LOOKING AFTER THE BRIDGES

Court Street Structure Will Be Repaired to Guard Against Accident

Members of the highway and bridge committee met this morning and made a personal inspection of the Court Street bridge. In several places they found the structure to be in bad condition, the blocks and planking being rotten and unsafe. They decided to make extensive repairs at once by replacing one half of the bridge. In time a new iron bridge will in all probability replace the present one.

The Milwaukee street bridge is also said to need looking after, but will no doubt answer the purpose for some time to come.

FOOT BALL RECORD MUST BE REVISED

RESULT OF DISQUALIFICATION OF MAYBURY AND COCHEM.

Prizes Won by Their Aid Are Declared Forfeited—The Banner of 1896 Goes to Grinnell—Result of Professionalism Proves Disastrous to State Pride.

The Chicago Evening Post, in speaking of the disqualification of Maybury and Cochem, the Wisconsin University football players, on account of their being professionals, has this to say:

Unexpected honors have come to Grinnell college, Ia., through the disqualification by the University of Wisconsin of her two star athletes, Maybury and Cochem. Two of Wisconsin's triumphs are thus taken from her, and the banner of the year 1896, with the intercollegiate championship in track athletics for that year, should now be awarded the Iowa college.

A careful scrutiny of the records of that year shows in the score, as it stood, that nearly half of the winnings of Wisconsin were due to the brawn and speed of the two athletes whom the cardinal has now declared professionals. It was in that year that the race stood practically between Wisconsin, Grinnell and Chicago. Wisconsin made a brilliant gathering of points to her credit, with Grinnell second.

In the dashes Maybury brought ten points to his alma mater, with Rush, of Grinnell, close behind him each time. The quarter-mile went to Grinnell and three points in the half-mile. Points were also won by Grinnell in the mile run and mile walk and in the hurdles, bringing the totals to twenty-two. Wisconsin, however, scored heavily in nearly every event, winning twelve points in the hurdles and eighteen in the field events, which gave her a grand total of forty-four points and first place in the games.

Wisconsin in spite of losing eighteen points still has a very creditable margin over any other opponents of the intercollegiate track events of 1897. The most of 1895 went to the fleet-footed athletes from Berkeley, Cal., and is not affected by the ban on the offending athletes.

It happens that three years of victory has not confirmed the Spalding trophy in the hands of Wisconsin so that the loss of one of her victories is not so vital to her as it would be otherwise. It was expressly provided that the Spalding trophy, which is a silver shield on an ebony pedestal, should not be the property of any college until it had obtained a majority of the games of nine successive years, so that Wisconsin has only temporary possession of it.

BUTTON COMPANY IS INCORPORATED

CAPITAL STOCK PLACED AT \$10,000.

F. S. Winslow as Manager of the Enterprise—Will Start the Factory Here Next Month—Will Be a Good Thing For the City of Janesville.

This city is to have a manufacturing plant that will turn out pearl buttons from clam shells. The new enterprise will be known as the Janesville Pearl Button Company, and today it was incorporated with a capital of \$10,000.

F. S. Winslow, of this city, will act as manager, and the building adjoining the cigar box factory of Thoroughgood & Co., on North Main street has been rented and is now being fitted with machinery.

Fifteen men will be put to work soon. Fifteen tons of shells have already been shipped into the city to commence work with. Shells found in Rock river and the adjoining streams will be sought.

The local firm will enter to the markets of the world, and no doubt Janesville's new enterprise will soon be one of her leading industries.

MEMBERS of the Midwinter Fair committee will meet at the Hotel Myers Thursday evening at 8 o'clock. Important business is to be considered.

A Pony's Intelligence.

A correspondent writes from Abbotsbury to Nature Notes: "The other day when we were having lunch we heard a strange scratching sound, and then as if some one were trying to turn the handle of the door. Our housemaid went and opened the door to see what it was, and there stood the baker's pony and cart. His master had left him in the road while he went to the next house, and the pony had turned round and himself tried to open the door. Of course we were much amused to hear what it was, and the door was shut again. The next minute came one loud, decided knock, evidently from the door knocker. "That can't be the pony," we all cried at the same time, rushing to the door, but it was. He was standing with his front feet on the pavement, quietly waiting, and very pleased at his success. Of course we gave him some bread, biscuits and sugar as a reward for his cleverness. He must have taken the knocker in his teeth."

His Strong Point.

Mrs. Gooding—For my part, I can't understand why you desire to associate with that Mr. Emptyhead. He is one of the least interesting persons I ever met.

Mr. Gooding—I must admit that he is not very brilliant, but he is the only man I know very well who never gives me any advice as to how we ought to bring up our boy.—Chicago News.

FARMERS RUSHING HOGS TO MARKET

CHOLERA SCARE HAS FRIGHTENED THEM.

Several Hundred Porkers From This County Have Been Shipped To Chicago Of Late—Most of Them Are But Half Grown—Signs of the Dread Disease Disappearing.

The dying of hogs by the hundreds in Rock county during the past few days has placed all live stock raisers on the anxious seat, and the result is that porkers by the hundreds are being daily brought to the different towns throughout the county for shipment to Chicago. Rather than run any further chance of their getting the dread disease the farmers are only too anxious to part with their stock. The loss falls on the farmer, for at this time of the year many of them are fattening young pigs that are but two or three months old and that should be kept for many weeks yet before being ready for market.

Many Brought Here

The local stockyards on Center avenue are no exception to the rule and in the vicinity of the yards long lines of wagons filled with young pigs have been drawn up daily of late, each waiting its turn to be unloaded. This rush of pork to market has had a tendency to somewhat lower the price. George Charlton, the well known local stock buyer, says that traders have been making heavy hog shipments to market of late, and that where it was sixty hogs to a car before, now it is one hundred and fifty to each car, and it is all owing to the fact that the porkers are not half grown.

Cholera Still Raging

In many parts of the county the cholera is still raging, and every known remedy is being tried by the farmers with poor results. Pigs on many of the farms have been divided and isolated as much as possible. Many have found that when the disease would get in its fatal work in one lot it would not make its appearance in the other. The disease of late has raised havoc on many farms, and the loss will foot up many hundreds of dollars.

THEIR FATE IN OUR HANDS.

Agoncillo Sets Forth the Policy to Be Pursued by the Insurgent Leaders—May Consent to Be an American Protectorate or Colony.

Washington, Sept. 28.—Felipe Agoncillo, representative of Aguinaldo's so-called Filipino republic, and Sixto Lopez, his secretary, arrived here Tuesday. In explanation of their mission, Agoncillo said:

"We first of all desire absolute independence. If the United States is unwilling to accord us that from the first then the next thing which would meet with favor by our people would be the establishment of a protectorate by the United States, and, third, to become a colonial possession of this country.

"One thing is certain, and that is that the United States can not justly ask us to lay down our arms and accept any terms of peace until we are absolutely assured by America that our islands will never be given back to the control of Spain.

"That point guaranteed to us, we will willingly lay down our arms and accept what the American government believes, in justice and right, we should be accorded. Should all of these three propositions which I have named fail, we would prefer to become associated and connected, even if we have our independence, with a nation of progress and advancement. We have implicit confidence that we will be accorded our rights and just deserts at the hands of the American people, and, in fact, our fate is in their hands.

"Should they finally decree that we must revert to the rule of Spain we will continue the struggle, as Cuba has done, to the death, and until every Filipino has been exterminated by the ravages of war. Never will we return to the rule of Spain. We prefer annihilation."

Agoncillo said his purpose was to lay before President McKinley the claims of the revolutionary government to representation at the Paris peace commission. Failing in that, he would submit another proposition, that their representatives be heard before the commission in order that any unjust statements made by the Spanish commission might be refuted.

Lopez said the Filipinos had no fondness for the Germans, and denied that any German proposals had been entertained by Aguinaldo, as the latter believed Germany was simply seeking her own selfish interests. Agoncillo did not speak on the German question.

COMMISSION IN SESSION.

Inquiry Into War Department Affairs Has Begun.

Washington, Sept. 28.—The scope and plan of the investigation into the war department by the committee appointed by the president was agreed on Tuesday. Affairs at Montauk Point are to be among the first investigated.

In its secret session the committee has decided on the list of persons whose testimony is to be asked. This decision was reached after a long discussion, in which it was thought best to have the charges made by particular persons reduced to writing and considered by the commission before the witnesses were called in person. The only exception made is in the case of general officers in command of companies, who are to be called immediately.

According to a member of the committee, Secretary Alger stands in danger of being removed from office if any negligence can be traced to him. When the president explained to the committee its duties he is quoted as saying: "If your investigation discloses any evidence of the culpability or negligence of the secretary of war he shall be promptly removed from his office. The same course will be taken in the case of any official under the secretary of war, whom you may find guilty of wrongdoing or of neglect of his duties, thereby imperiling the lives of the soldiers of the army."

SPANIARDS IN NO HURRY.

Indicate They Will Take Their Own Time About Evacuating Cuba.

Havana, Sept. 28.—The Spanish commission has not yet answered the American note concerning the time of evacuation, but it is almost certain that the Spaniards will not accept the short time granted by the Americans. Dispatches received here from Madrid announce that the cabinet agreed at its last meeting that the evacuation of the island cannot be completed as quickly as the American government and the commission desire. Correspondents have talked with many high Spanish officials here, and they all gave the same answer when asked when the evacuation would be completed. They declared that it was a matter of five months at least, and

they talked as though the American government had very little to say in the matter. This seems to be the attitude of all the Spaniards. It is very apparent that they intend to suit their own convenience, depending on dilatory tactics to hoodwink the American commissioners.

TROOPS TO GO TO CUBA.

Plan of the War Department—Leo to Command a Division.

Washington, Sept. 28.—A comprehensive program for moving troops to Cuba has been outlined by the war department, and its initial features have been decided upon. This result is due to directions given by the president on Sept. 19, to the effect that details of troops be made for Cuba. Acting on this, Maj.-Gen. Miles outlined a plan for sending two divisions to the island, the first, under command of Maj.-Gen. Wade, to leave in October, and the second division, under Maj.-Gen. Fitzhugh Lee, to leave in November. Each division will embrace about 6,000 men, so that the plan is to have some 12,000 troops in Cuba or on the way there within the next sixty days.

It is not contemplated, however, that any large number of this force shall be assembled at any one point in this country or in Cuba, the desire being to keep them scattered, as they can thereby be handled to better advantage. From the fact that they go to Cuba it does not mean that they will proceed directly to Havana. On the contrary, the outlook is that there will be very few troops at Havana, the bulk of them being scattered through the western end of the island, garrisoning the small towns and thus gradually putting into effect the military occupation of the island.

Storm Rising in Spain.

Madrid, Sept. 28.—While political parties and writers and pretorians are still conspiring, the people do not respond, but are awaiting the signing of the Paris treaty and the development of Weyler's plan to force a dictatorship upon the country and secure the support of the troops when they arrive from Havana. Nobody here believes it possible to save the dynasty, but there is a general feeling that blood will certainly flow before the end of the year.

Will Cost \$800,000.

Washington, Sept. 28.—Chief Constructor Hitchcock estimates that it will require an expenditure of \$800,000 to put the Spanish flagship Maria Teresa in serviceable condition. This amount is proportionately small to the benefit gained, as the Teresa could not be duplicated for less than \$4,000,000.

Sail for Manila This Week.

New York, Sept. 28.—The Iowa and Oregon, it is expected, will sail this week for Manila to join Admiral Dewey's squadron. The Oregon left the New York navy yard this morning at 8 o'clock and anchored off Tompkinsville, there to await the Iowa.

Col. Bryan Still in Bed.

Washington, Sept. 28.—Col. William J. Bryan of the Third Nebraska is still confined to his bed in the home of his friend, C. T. Bride, 131 B street southeast. He is suffering from an attack of low fever, but his physician does not regard his condition as serious or alarming.

Gen. Greene Will Resign.

Washington, Sept. 28.—Maj.-Gen. F. V. Greene, who reached Washington from Manila Tuesday, will resign his commission as major-general of volunteers while in this country, and will not return to the Philippines.

Monster Losses for Spain.

Madrid, Sept. 28.—The figures published by an agency, which give the expenses of the war as 2,000,000,000 pesetas, are short of the exact figure by nearly that amount.

CANAL ROUTE IS FEASIBLE.

Government Engineers Will Make Favorable Reports.

New York, Sept. 28.—All doubt as to the possibility of building the Nicaragua canal on the route selected by the Maritime company will be removed when the commission of which Rear Admiral Walker is the head makes its report.

The surveys made have shown that the proposed canal is entirely feasible; that no serious obstacles are in the way, and that the cost will be considerably less than the estimates made by the Ludlow commission, or the sum named by Admiral Walker a year ago as likely to be needed.

The reduction in cost is due to a change in the location of the Ochoa dam and to other modifications of the old route.

The Ludlow commission estimated the cost of the canal at \$133,000,000. Admiral Walker named \$125,000,000 as the aggregate cost. The report of the engineers will place the estimate at less than \$100,000,000.

By changing the location of the dam from Ochoa to a point fourteen miles lower down the building of the San Juan basin

WOLCOTT AND ADAMS URGED.

Two More Candidates for Ambassador to Great Britain.

New York, Sept. 28.—A dispatch to the Herald from Washington says: "President McKinley is considering the recommendation of prominent public men of Massachusetts that Gov. Wolcott be appointed ambassador to Great Britain. Notwithstanding the strong endorsements, however, it is not believed in well-informed circles that he will be offered the position.

"In any event the president does not propose to make a selection until the arrival here of Col. Hay, when the matter will be discussed and settled. In view of the president's desire to consult with Col. Hay, it is believed in

circles that the recommendation of Gov. Wolcott is not likely to be made. It is believed that the president will wait until the arrival of Col. Hay, when the matter will be discussed and settled. In view of the president's desire to consult with Col. Hay, it is believed in

to say, no one was hurt beyond a few bruises in either accident. After the freight train crash a baggage man ran back and flagged the Oak Hill accommodation on a curve within 500 feet of the collided trains. It is thought some small boys placed the spike between the rails. The property loss to the railroad is considerable, but not estimated.

Iowa Soldiers Cannot Vote.

Des Moines, Iowa, Sept. 28.—Gov. Shaw states positively that no extra session of the general assembly will be called to allow the Iowa soldiers still in the service and outside the state an opportunity to vote. He said no candidate for office had requested it.

Why Beauty Fades

Women, through ignorance, accept periodical pain as a matter of course and do not look for aid.

[A TALK WITH MRS. PINKHAM.]

Nearly thirty years of woman's life is a struggle with menstruation. From the dawn of womanhood to the calm of middle life, the monthly period is the pivot on which the female existence swings.

Tradition handed down from generation to generation has made some women believe that this constantly recurring event must be accompanied by great pain and real sickness.

While it is very true that a certain amount of discomfort is unavoidable, those prostrating headaches or dull, wearing pains, and in some cases excruciating agony, are for the most part unnecessary and cruel.

The relief from painful menses, resulting from the use of Lydia E. Pinkham's Vegetable Compound, has been proven conclusively by the testimony of thousands of women. It goes straight to the root of the trouble and relieves quickly and permanently.

Nature has not intended that women should suffer so, and it is a pity to see beautiful young women fade early in life because of needless pain.

Mrs. GEORGE NEHRDORF, of Crittenden, Erie County, N. Y., says: "There is no need for women to suffer if they will only take Lydia E. Pinkham's Vegetable Compound. I suffered for years with painful menstruation, thinking there was no remedy for it; but, after reading your little pamphlet, I thought I would give your medicine a trial, and it is wonderful how quickly it relieved me. I recommend it for all women who suffer with painful menstruation."

Here are letters from two other grateful hearts:

From the time my courses commenced, every time they came I would suffer terrible pain. I got so bad that I would be taken with fits and would fall. I was treated in two hospitals in New York and in Middletown. Every month I was out of my mind. I thought I would try your Vegetable Compound; and after using one bottle, I found it was helping me. I continued its use, and now it is a great surprise to all who know me to see me so well. I wish to thank you for the great relief I obtained from taking your Vegetable Compound, and would recommend it to all suffering women.—Miss HELEN HANSCHE, 242 Atwater St., New Haven, Conn.

I am a girl that has to work for a living, and am obliged to be on my feet a great deal. I was troubled with my menses being irregular and painful, but by following your kind advice I have found relief. I shall never regret the money I spent for your medicine. I highly recommend your Vegetable Compound for irregular and painful menstruation.—Miss LAURA GRUBER, 5th Ave. and Scott St., Leavenworth, Kan.

If there is any further advice you would like to have on this subject, you are privileged to write freely to Mrs. Pinkham at Lynn, Mass. Her answer will be free and prompt. Remember you address a woman, not a man. This fact is important.

DANGER IN SODA

Serious Results Sometimes Follow Its Excessive Use

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief, and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulated in the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for our stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

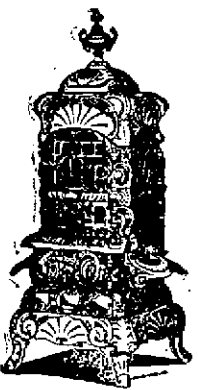

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package.
